

I've got another problem. Who can I contact?

You can contact us in different ways:

You will find our telephone number, e-mail and postal address under <https://www.personnel-department.cloud/contact.html>.

When you register, you and all other individuals, who also have administration rights and are therefore permitted to manage the survey and the personnel files, have access to our Service Desk.

This is our application for queries from customers concerning modifications and enhancements etc. However, it can also be used for critical comments and product extensions.

Please select  and [Link to Service Desk](#) in the menu bar. Please register using your login data and enter your request. We will respond immediately.
