

Hiding the working time account for employees

No employees (neither staff nor HR) in the company/companies selected have access to their working time accounts and thus the times recorded. Time recording is excluded from this restriction. Queries in the chatbot need to be locked separately, if necessary (see [Locking working time account queries in the chatbot](#)).

Hide working time account for employee

The employees (except HR) of the selected company(s) do not have access to their working time account and therefore the posted times. Time recording is excluded from this. The query via chatbot must be blocked separately.
