

Daily Topics

Please select **Daily Topics** so as you can receive the latest concise information on new events..

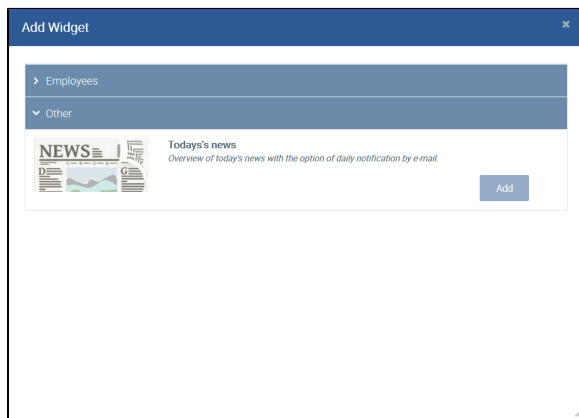

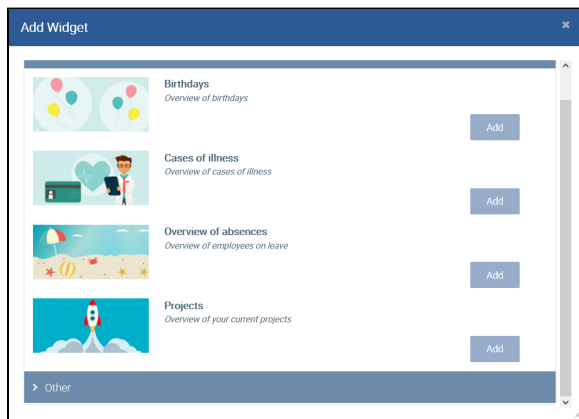

Daily Topics

You can display the topics you consider important by using .

You can currently choose from the following topics:

- Birthdays
- Cases of illness
- Absences
- Projects
- Today's news

By pressing **Add**, your dashboard will be filled and the respective employee data will be inserted.

Each topic (widget) can be reduced, edited or deleted in the view.

Under **Edit settings**, you can change the title and assign a different colour to the header – just as you wish.

Under Settings, you can select the subject areas you want to be informed about, for example:

- New employees
- Employees leaving

Today's news

- Birthdays
- Leave
- Cases of illness
- Absent without reason
- Manual break not booked
- End of working time not booked
- Start too early
- Start too late

Grau, Momo	Kovács, László	Ram, Suresh	
			

Example: 4 employees are absent, so they have not started their working time

In addition, you can have this selected information sent to you as a daily e-mail at 10:00 am.

To this end, please activate the following box:

Daily e-mail notification at 10:00

You will receive an e-mail containing these topics, if you have configured this, only on the days that have been assigned in the working time model and on days that are not a public holiday or you are not marked as absent. You will not receive an e-mail on days when there are no new topics.
