

Basic leave days overbookable

If employees in your company should be allowed to use their leave days for the coming year already during the current year, you can use this feature. Set the maximum number of transferable basic leave days that cannot be exceeded in leave requests.

Basic leave days overbookable

0

The following year’s respective basic leave days can already be booked during the current year by all employees of the selected company/companies. The maximum number of transferable basic leave days is:
